BEAUTY BOX

Design Documentation

Created by: Lamis Ahmad Samara

Creation date: 10/12/2021
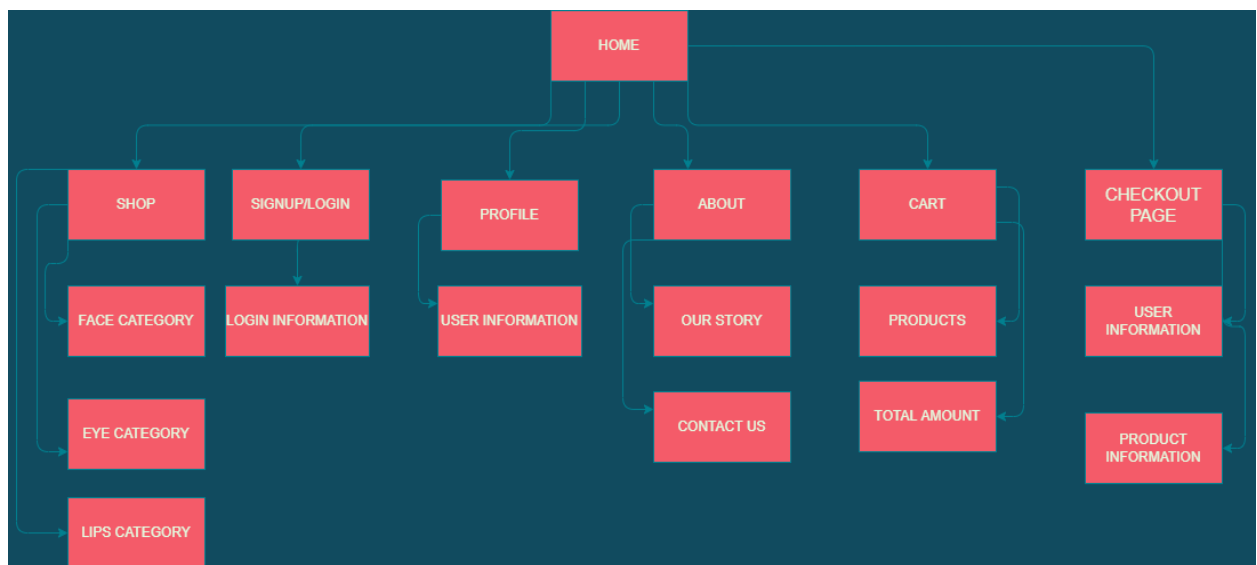

Introduction

1- Overview:

Beautybox is an international website that offers cosmetics related to your beauty, consisting of 3 categories (face, eyes and lips) carefully selected to suit your skin from the most luxurious international brands. Beutybox offers cash on delivery service.

2- What is a Design Document?

A collection of documents and resources that covers all areas of your product design is known as design documentation. Users, product features, and project deadlines should all be documented, as well as all necessary implementation details and design decisions.

3- Site Map:

A sitemap is a file that contains information about your site's pages, videos, and other assets, as well as the relationships that exist between them.

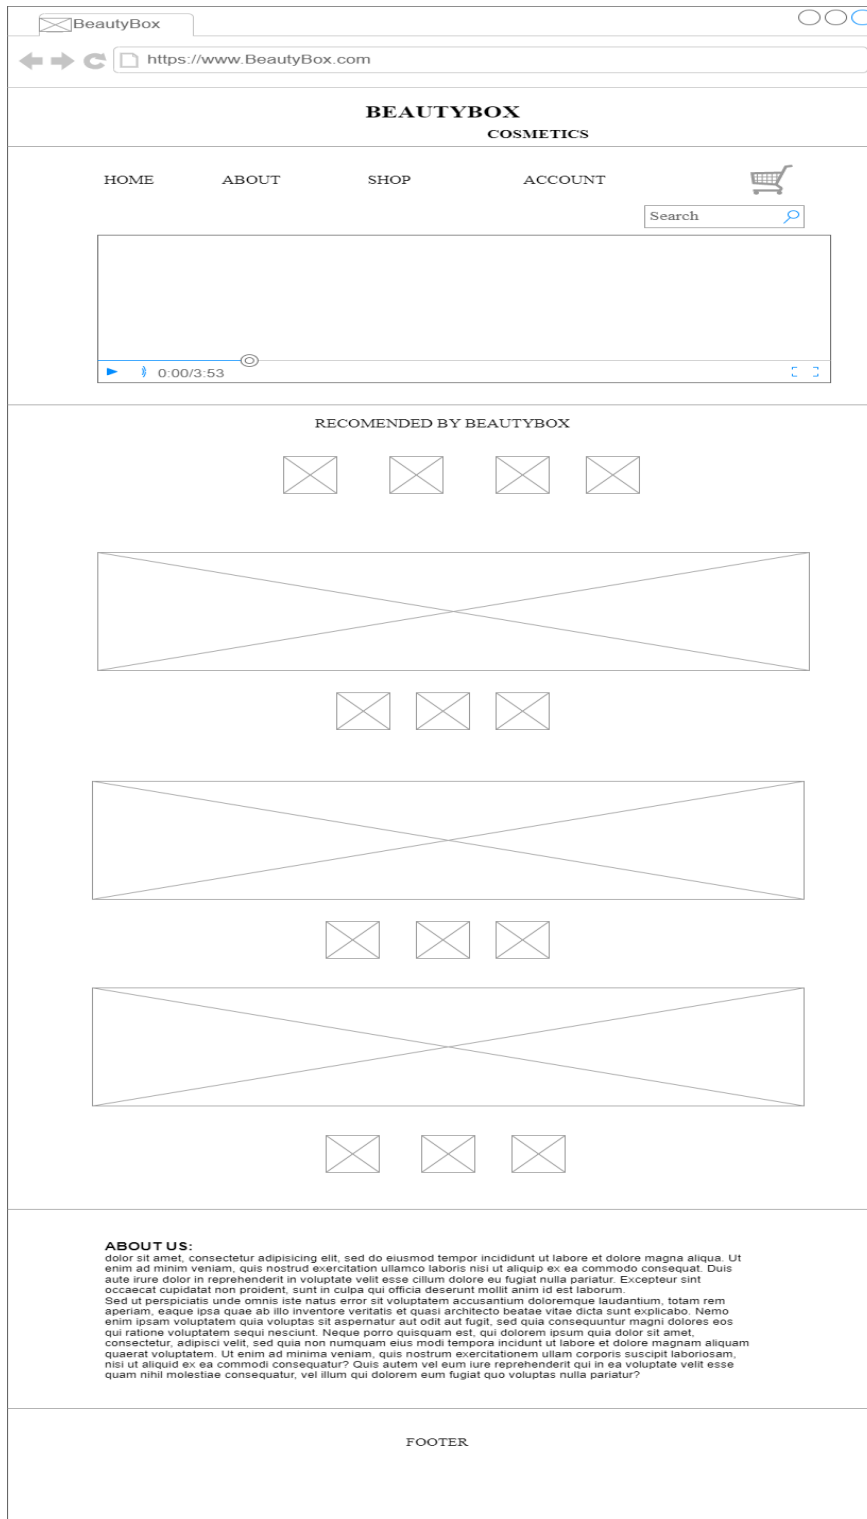

4- Wireframes:

Wireframing is a technique for designing a website's structure. A wireframe is a diagram that shows how content and functionality on a website should be laid up, taking into account user needs and journeys. Early in the development process, wireframes are used to build the basic framework of a page before visual design and content are added.
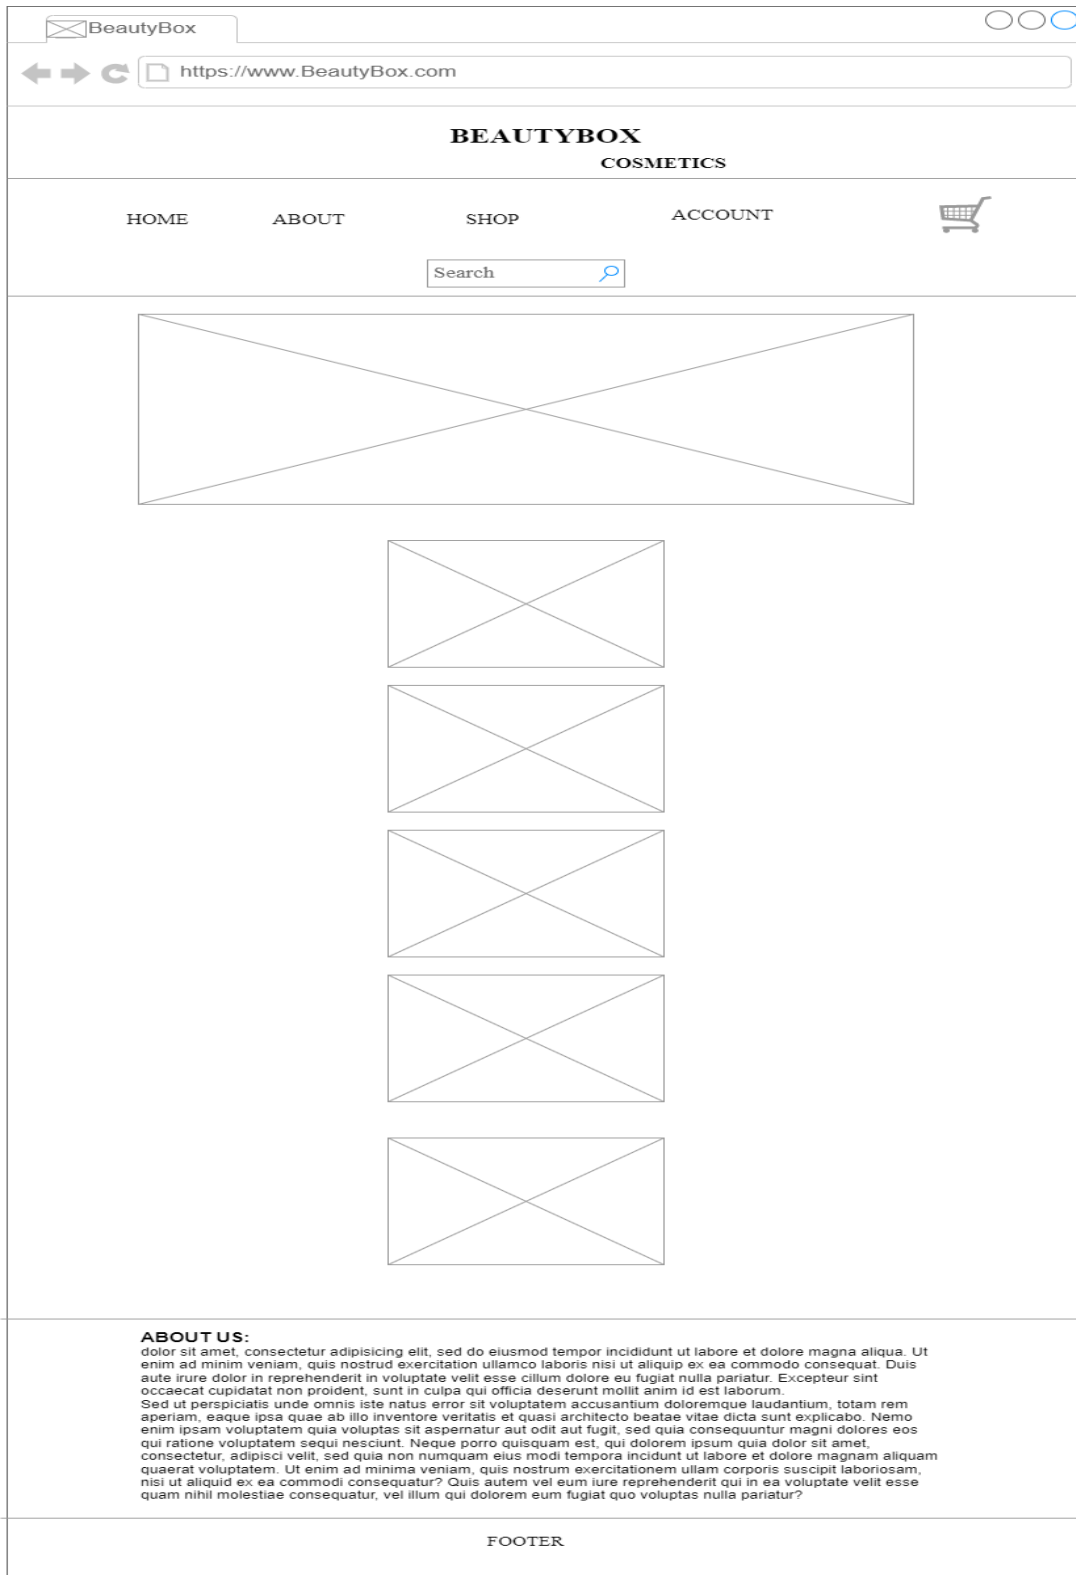

1-HOMEPAGE:

BEAUTYBOX home page includes the navigation bar that includes the shop, about, cart, registration, profile bottoms, in addition it includes the search bar and a short video. You can find in it a recommended products and the categories it has. Finally, it has about box and the footer.

2-SHOP:

It includes our categories (products, description, price, colors, brands) for each category. You can buy any product by clicking on it and add it to the cart.
